

## Random Testing - *Sample Collection Instructions Form*

1610 Harrison Street • Oakland, CA 94612 • Toll-free (866) 465-2523 • Fax (510) 482-4421 • www.coolroofs.org

### **FORM INSTRUCTIONS:**

**For Licensed Sellers Only** – this form is to be submitted by Licensed Seller at time of initial product application to the CRRC. Please complete the entire form with information appropriate to the rated product. The description should explain how to properly prepare a sample for Random Testing, a CRRC-1 Program requirement (please see Procedure 1 for more Random Testing details). These instructions will be used by contractors and distributors contacted by the CRRC for random testing.

**Note: Samples are *not* to be taken from an installed roof and all samples should be dry.**

<b>Product Identification--</b>	
Name of Licensed Seller:	
Brand Name:	
Model Name:	
Product Description:	

### **Type of product (circle one):**

Rolled Good	Field-Applied Coating*	Modified Bitumen	Metal
Single Ply	Factory-Applied Coating	Shingles or Shakes	Tile or Slate
Other _____			

### **INSTRUCTIONS FOR TEST SAMPLES:**

\* If the samples are for a factory- or field-applied coating product, 3 aluminum blanks will be provided to the distributor or contractor by the CRRC. Only one sample will actually be sent to the AITL. Instructions should explain the proper procedures for application of the coating to these blanks, including such details as mixing and curing times.

**For all other products, please describe sample collection instructions in the space below:**

**Please feel free to attach additional materials/instructions useful in explaining proper procedures for sample collection.**

*A facsimile, emailed or electronically delivered copy of this Application or of a signature of a party will be effective as an original.*
